
FAQ's

Do we need to change our website?

No. You can keep using your existing website regardless of whether it's from Sportsground or another provider and use additional Sportsground services.

How do SuperForms work?

At Centre level you set the fields of information you require for members and each Club/School can then add additional information they would like captured. All registration information goes in to Club/School and the information requested by the Centre flows in to the database in real time.

What is SKED?

SKED is our online competition management solution which enables you to create draws online, allocate courts and umpires, input scores and publish results all simply and quickly.

Can clubs/schools register members online?

Members can register to your Club/School through basic registration forms. If your Centre has SuperForms™ enabled this information will flow through automatically, eliminating the need for additional registration processes.

Can I complete my registration on mobile?

Yes – registration forms and payments can be completed on mobile devices.

Are the details entered online secure?

Yes. The details entered online are only accessible by authorised administrators at your Club, School or Centre.

What does it cost?

Sportsground has a range of solutions to complement your organisation's current systems and requirements. Most services have a FREE option with upgrades available. NNZ has agreed preferential rates for all NNZ affiliated Centres, so be sure to talk to the team at Sportsground and discuss the services available.

Netball New Zealand's Technology Partner:

An introduction to Netball's DNA

We live this game.

WHAT IS DNA?

Netball New Zealand has partnered with Sportsground to deliver a Digital Netball Administration (DNA) system to help Centres, Clubs and Schools deliver Netball to its members in a simple, effective and affordable package.

We understand that every Centre, Club and School has different requirements. Sportsground has a range of products to complement your current system, including:

- **Websites** – simple login, build and update technology. Fully responsive on mobile devices. FREE and upgraded options available.
- **SuperForms™** – register online, anytime. Ensure accurate information with set fields and automatic reporting to parent organisation. Preferential pricing available for NNZ Centres.
- **SKED Competition Management** – Cloud based solution with easy ‘drag & drop’ functionality, intuitive design and one button publication to website.
- **Sporty App** – FREE for all Centres, Clubs and Schools. Driven from website and enables easy access to information and push notifications for group alerts.
- **Team Builder** – create teams, schedule trainings, track results and print team sheets.
- **Online Payments** – accept payments via bank transfer, credit or debit card.
- **Communications** – send regular communications via emails and newsletters.

SAVE TIME. SAVE PAPER. GROW MEMBERS.

New organisations will receive personalised consultation to understand your capabilities and requirements, as well as provide training. There’s also online, email and phone support should you have any questions.

“ This year Christchurch Netball Centre was part of the SKED Competition Management pilot programme for our main season draw. We worked throughout the season to test and refine the solution and think it’s an exciting development for all Centres looking for a complete online competition solution. The service and assistance provided by staff is second to none! ”

Christchurch Netball Centre

“ Netball Taranaki has been happy to be part of the SKED Pilot Programme this year. They have worked with us to develop solutions for complex competition with a satellite venue structure and cross over games. The cloud based system is great – being able to log in anywhere, anytime really helps keep everything up to date. ”

Netball Taranaki

Sportsground will be running annual training workshops nationwide to help you get ready for the upcoming season.
